EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application is in condition for allowance except for the presence of claims 11-21, nonelected without traverse in the response filed on August 25, 2004.

Accordingly, claims 11-21 have been canceled.

Allowable Subject Matter

2. Claims 1-10 are allowed.
3. The following is an examiner's statement of reasons for allowance:
4. The prior arts of record do not anticipate or render obvious to one skilled in the art a liquid crystal display device having an array substrate comprising various elements as claimed, more specifically the limitation such as a semiconductor layer having an active layer over the gate electrode, a first extended portion, and a neck region connecting the active layer and the first extended portion, wherein the first extended portion and the neck region corresponding to the drain electrode, and wherein both sides of the neck region are completely covered with the drain electrode parallel to an extended direction of the drain electrode toward the source electrode is considered novel.
5. The closest reference USPAT 6,671,010 (Kwon) is related to a liquid crystal display device having an array substrate wherein the semiconductor layer having an active layer over the gate electrode, a first extended portion, and a neck region connecting the active layer and the first extended portion, wherein the first extended portion and the neck region corresponding to the drain electrode. However, Kwon alone or in combination with any other prior art references fails to teach or suggest that both sides of the neck region are completely covered with the drain electrode parallel to an extended direction of the drain electrode toward the source electrode.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
